

AWIS members have the opportunity to attend a focus group with the team at Achieve More LLC that is creating the AWIS Strategic Plan. Our goal is to learn through hearing diverse experiences, views, and responses to questions about the future of AWIS. These sessions will help us better understand our strengths, challenges, and opportunities for growth. We will use what we learn to meet our mission as an association.

Register and attend ONE of the following listening sessions. Multiple options are offered to accommodate the most people. We hope you'll be able to find one that works for you and share your thoughts and opinions!
